- Suitable for ensuring events of different levels from local to worldwide events

BENEFITS OF ISO 20121 CERTIFICATION TO YOUR CUSTOMERS:

- Better sustainable and organized events
- Conformity of services
- Provides more reliability for customers
- Improves the reputation

UNDERSTANDING THE CERTIFICATION PROCESS

ISO 20121 certification (also known as “registration”) is granted by a third-party, such as CCQM, upon verifying through an audit that the organization is in compliance with the requirements of the ISO 20121 standard. This certification is then maintained through scheduled annual surveillance audits by the registrar, with re-certification of the event sustainability management system performed on a triannual basis.

- Step 1. Pre-Audit (Optional)- It must be done at least 3 months before Certification Audit
- Step 2. Audit Plan - Plan for audit has to be mutually agreed
- Step 3. Audit Stage 1 & 2 - Non-conformities must be closed at least 3 months after audit conclusions
- Step 4. Initial Certification - Certificate will be issued within 2 weeks after successful audit closing

Once certification has been obtained, the organization will be subjected to two surveillance audits within 24 months from the initial certification:

- Surveillance Audit Stage 1 - No longer than 12 months from the initial certification audit
- Surveillance Audit Stage 2 - No longer than 12 months from the 1st surveillance audit
