- Empowers organizations to capitalize on the value of their information resources as business, commercial and knowledge assets

BENEFITS OF ISO 30301 CERTIFICATION TO YOUR CUSTOMERS:

- Improves quality and services
- Safe and effective system for records
- Cost reductions
- Easy implementation of management system for records
- Continual improvement

UNDERSTANDING THE CERTIFICATION PROCESS

ISO 30301 certification (also known as “registration”) is a third-party audit performed by a certification body such as PECB who, upon verification that an organization is in compliance with the requirements of ISO 30301, will issue an ISO 30301 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification of the Quality Management System performed on a tri-annual basis.

- Step 1. Pre-Audit (Optional)- It must be done at least 3 months before Certification Audit
- Step 2. Audit Plan - Plan for audit has to be mutually agreed
- Step 3. Audit Stage 1 & 2 - Non-conformities must be closed at least 3 months after audit conclusions
- Step 4. Initial Certification - Certificate will be issued within 2 weeks after successful audit closing

Once certification has been obtained, the organization will be subjected to two surveillance audits within 24 months from the initial certification:

- Surveillance Audit Stage 1 - No longer than 12 months from the initial certification audit
- Surveillance Audit Stage 2 - No longer than 12 months from the 1st surveillance audit
